

*Working down at the harbor
Taking my breaks on the pier
Watching the ships
as they twist and turn
Where my mind is at
Is of no one's concern*

*Remembering your sparkling eyes,
Thinking you're above my horizon
Longing to hold you in my arms... again*

*"We're the same water
Blue's our daughter
Floating around
With a murmur sound
When we're together
Oh, I feel better
I wish you could be with me... tonight"*

*Four more days and it's Friday
I'm working double shifts
Trying to save up some extra coin
I'm Keeping up the pace
With my mind on your loins*

*Early this morning I woke up
With the happiest smile on my face
I turned to the side,
but then you were not there... again*

*"We're the same water
Blue's our daughter
Floating around
With a murmur sound
When we're together
Oh, I feel better
I wish you could be with me... tonight"*
